

ENERGY SAVING GLASS

Energy Saver®—Reduce Heat Loss Up To 30%

Offering the most cost-efficient energy upgrade, the Energy Saver package includes upgrades from clear to LoE glass and argon gas for improved thermal performance. Energy Saver reduces heat loss by 30% compared to clear insulating glass.

Energy Saver® Plus—Reduce Heat Loss Up To 40%

The best value in insulating glass, Energy Saver Plus includes, argon gas for improved thermal performance and LoE³-366 glass. With triple layers of Low-E coating, LoE³-366 helps you save energy through improved thermal performance, reduces solar heat gain and helps protect interior furnishings from fading. Energy Saver Plus reduces heat loss by 40% compared to clear insulating glass.

Tempered Glass

Tempered glass is the result of a heat-treating process, which makes it stronger. After glass has been tempered it will not break into dangerous shards, but into smoother round pieces. Local codes often require tempered glass to be used in all windows that are close to the floor or near doors, bathtubs or showers.

Neat® Glass*

With this glass option you gain natural cleaning convenience. By harnessing the sun's UV rays (even when the sky is cloudy) to loosen dirt from the glass, rainwater can easily rinse away grime. No manual activation is required. For more information visit www.jeld-wen.com.

Textured and Tinted Glass*

Obscure Glue Chip Rain Reed Bronze Gray

Window Opening Control Device (WOCD)

Factory-installed Window Opening Control Devices (WOCD) from JELD-WEN are designed to meet the ASTM F2090-10 standard intended to help prevent accidental falls from windows by children 5 years of age and younger. Factory-installed WOCD's can be ordered on the double-hung, single-hung, sliding and casement windows.

Window in closed position

WOCD limits the sash opening to less than 4 inches

Features & Benefits

- » Streamlined design won't obstruct views like many after-market options
- » Automatically limits sash opening to less than 4 inches
- » Manual override for full operation and for emergency escape and rescue
- » Device automatically resets by closing the window
- » Meets the ASTM F2090-10 standard
- » Potential alternative to minimum sill height requirement (consult local building codes)

PATIO DOOR OPTIONS

Optional Blinds Between the Glass†

Optional ADA-compliant Patio Door*

† Available with or without Low-E glass
*Product does not meet ADA changes in level compliance

ADA compliant Builders Vinyl sliding patio door

Pet Panel Option Available

- » Slides vertically to allow outdoor access
- » Available in standard 6'0" x 6'8" and custom sizing on full units
- » Panel is available in 3 standard sizes to accommodate your pet; see sizing guide for more information
- » Features the award winning WEN-LOCK® for security
- » Magnetic pull on the pet flap, to prevent it from being blown-in by strong winds
