## Wood Windows & Patio Door Features

Awning | Bay & Bow | Casement | Double-Hung  
Sliding Fixed | Radius and Geometric | Transoms | Patio Doors

AuraLast® Wood protects against wood rot for as long as you own and occupy your home. Guaranteed.

**Guaranteed Protection Against Wood Rot**

JELD-WEN® wood windows and patio doors made with exclusive pine AuraLast Wood are guaranteed not to rot for as long as you own and occupy your home. Wood components made from AuraLast Wood maintain their structural integrity even in the toughest climates. Visit [jeld-wen.com](http://jeld-wen.com) to view the full warranty.\*

**Surface-to-Core Protection**

Because of our vacuum/pressure process, AuraLast Wood provides virtually 100% penetration of the protective ingredients. Other manufacturers use submersion/dip-treatment methods, which only protect the outer surface of the wood.

**Working With AuraLast Wood is Easy**

AuraLast offers the strength and beauty of real wood because it is real wood, not a composite. AuraLast Wood is colorless, stainable and odorless.

**AuraLast is Safe**

AuraLast Wood is made by using a water-based solution to deliver the effective ingredients to the core of the wood. Traditional dip-treatments use a solvent-based chemical bath. During production our AuraLast process releases 96% fewer volatile organic compounds than the traditional dip-treatment method.

Traditional treatments only protect the outer surface

**A JELD-WEN Exclusive**

Only JELD-WEN makes window and door products with natural pine AuraLast Wood that are built to last.

**Protects Against Water Saturation**

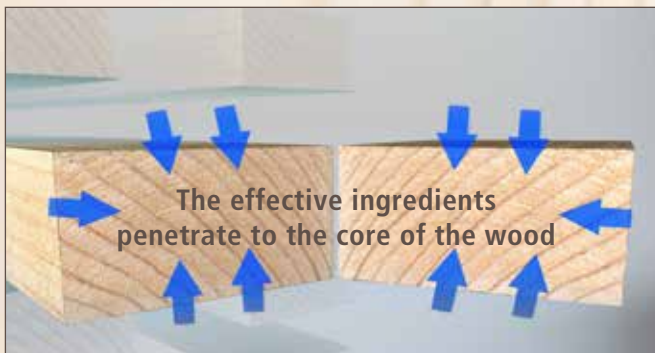

AuraLast Wood offers superior resistance to water saturation, which protects against swelling that causes windows and doors to stick.

**Protects Against Termites**

Harmful termites will eat through unprotected wood—not so with AuraLast Wood.

Visit [jeld-wen.com/auralast](http://jeld-wen.com/auralast) for more information

**\*AuraLast Lifetime Limited Warranty Coverage for Wood Decay and Termite Damage**

Virtually 100% Surface-to-Core Protection

# CLADDING & TRIM

## Window & Patio Door Styles

## Clad Colors

The cladding we use features a baked-on finish that does not need to be repainted over time and requires minimal maintenance. Our cladding also allows you to accentuate your home's visual appeal, because we provide a range of beautiful clad colors. The available colors are shown here.\*

\*Colors shown may not match our clad colors exactly.  
 \*\*Not available on sliding windows or Hallmark Hinged swinging patio doors.

## Exterior Trim

Choose exterior trim for added visual appeal. We offer factory-applied brickmould, primed backband, flat casings and Heritage casings for our windows and patio doors with primed wood exteriors. For clad-wood exteriors, we provide factory-applied aluminum brickmould, Adams casing, flat casing and sill nosing.

### Wood Exterior Trim

### Clad Exterior Trim

## Interior Trim

Our radius windows are available with 2-1/4" interior radius casing in three profiles (shown below). Each profile comes in either pine or oak. Corner blocks are also available in pine or oak. Additional patterns and finishes are also available.

# FINISHES & HARDWARE

## Standard Prefinished Interiors

### Custom Options Available

- |                    |                  |              |
|--------------------|------------------|--------------|

\*\*PVD finish

# GLASS OPTIONS

## Glass Options

### Low-E, LoE<sup>3</sup>-366 and Low-E EC Insulating Glass

High-performance Low-E insulating glass comes standard and helps lower energy costs, allows homes to stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater visible light transmittance than tinted glass. We also offer optional LoE<sup>3</sup>-366, which provides even more protection against heat loss and fading, as well as greater energy savings.

Most windows and patio doors with Low-E glass are ENERGY STAR<sup>®</sup> qualified. ENERGY STAR products help Americans save energy, save money and reduce their carbon footprints. ENERGY STAR criteria for windows are based on the U-factor and SHGC combinations that provide significant energy efficiency for a given climate zone. It's easy! Just tell your JELD-WEN dealer you want JELD-WEN windows that are ENERGY STAR qualified for your climate zone.

For even more protection choose Low-E EC for an "extra coating" that improves the thermal performance of our windows and is the optimal solution for meeting ENERGY STAR criteria in certain regions of the country.

For more information, visit [www.jeld-wen.com/energyefficiency](http://www.jeld-wen.com/energyefficiency).

## ENERGY STAR<sup>®</sup>

Many JELD-WEN windows and doors are ENERGY STAR qualified. Homeowners can save energy—and money—by replacing old windows with ENERGY STAR qualified windows and pay a 7-15 percent lower household energy bill. Lower energy consumption also reduces greenhouse gas emissions from power plants and shrinks a house's carbon footprint. JELD-WEN has been an ENERGY STAR partner since 1998.

## Divided Lites

There are luxuries in life that aren't tied to money. At JELD-WEN, we understand this idea, which is why we craft reliable Tradition Plus wood windows and patio doors. Each one is designed to enhance homes with exceptional beauty and energy efficiency at a great value. These windows and patio doors also provide dependable performance time and time again. They're simply worry-free, which, of course, is the best luxury of all.

Zinc

# TEXTURED & TINTED GLASS AND SCREENS

## Textured & Tinted Glass

Tinted glass reduces glare, and it's ideal for areas that get a lot of direct sunlight in the summer.

We offer clear, Green, Gray, Bronze, Reflective Gray and Reflective Bronze tinted glass.
